Part #:SS-06563 Black Camera

## Main Features:

- ▶ An ultra-fine CCD with an effective pixel count of 6.2 megapixels (maximum recordable 8 megapixels).
- ▶ Large 2.5-inch LCD in a compact, light-weight camera body.
- ▶ 3x optical zoom lens with a focal length ranging from 35 - 105mm.
- ▶ Macro photography shooting distance as close as 2 inches/5 cm.
- ▶ Adjustable white balance with 7 settings.
- ▶ Exposure correction function ( $\pm 2EV$ , in steps of 0.5EV) shifts auto-exposure settings to compensate for tricky lighting situations.
- ▶ Continuous shooting function and auto-bracket function.
- ▶ Special image effect settings (Black-White, Normal, Sepia, RGB, Custom).
- ▶ Built-in memory of 32MB and accepts SD / multimedia cards.
- ▶ Rugged housing and rated to a depth of 150ft/45m.
- ▶ An exclusive bayonet mount accepts a wide-angle conversion lens or a close-up lens designed for the DX-860G.
- ▶ A lever-type shutter release makes tripping the shutter easy and responsive.
- ▶ Built-in flash diffuser softens the flash for more gently illuminated images.
- ▶ Fiber-optic cable socket for an external flash.
- ▶ Accessory shoe for attaching accessories.
- ▶ External LCD monitor hood.

### Included Accessories:

- ▶ Close-Up Lens for the DX-860G Housing
- ▶ Lithium-ion battery and charger

### Optional Accessories for the DX-860G Housing

Wide-Angle Conversion Lens for the DX-860G covers a maximum field angle equivalent to approx. 20mm lens (35mm film camera equivalent) when used with the DX-860G.
