

U/W Housing for the Nikon D200

DX-D200

The DX-D200 housing for the popular Nikon D200 digital camera puts TTL flash accuracy at your fingertips for vivid and spot-on exposures.

MSRP: \$2550.00

- Ultra compact housing with front and rear halves constructed of corrosion-resistant aluminum alloy.
- Housing controls provide function of the Nikon D200 features underwater.
- Two type-N strobe connectors (2-pin & 5-pin) as standard.
- Newly designed pickup viewfinder brings every corner of the camera frame into clear view (0.66x magnification).
- New shutter release lever is sensitive and provides clear feedback for the finger.
- Optional TTL converter for Nikon cameras enables automatic TTL flash adjustment.
- Depth rating of 200 ft/60 m
- Compact and light weight (2,500g / 87.5 oz).
- Accommodates most NX lens ports and accessories.
- Quick shoe makes it easy to insert and remove the camera.
- Port lock mechanism assures a safe and secure port mount.
- Two locking latches prevent accidental housing opening.
- Built-in leak sensor signals an alarm if water is detected.
