# Dream HOME

RESORTS WEST has joined forces with SKI Magazine and Deer Valley Resort to build the first “SKIDream Home.” The SKIDream Home is being constructed on a picturesque ski in/ski out lot located slope-side at Deer Valley Resort®, the perfect setting for the ultimate ski vacation home. Deer Valley, ranked by SKI Magazine this year as the nations #1 ski destination, is known for its outstanding service, incredible attention to detail and breathtaking natural beauty.

Skiers getting off the Jordanelle Express Gondola or the Deer Crest Chairlift can ski along the Mountaineer Run and find the SKIDream Home about 250 feet on their right hand side. The ski entrance will have ski racks, benches, a fire pit and sliding glass doors entering the home. The ski room will be a great place to gather in on those chilly ski days with a fire place, cozy sitting area, bar, lockers, washer and dryer, boot warmers, ski tuning bench, much more.

## SKI DREAM HOME FACTS

- ★ Located in Deer Valley, Utah (Deer Crest lot #2)
- ★ Lot location is ski in/ski out and sits atop Little Baldy Peak
- ★ 360 degree breathtaking views, including views of Jordanelle Reservoir, the Uintah Mountains, & Deer Valley’s Snow Park Lodge
- ★ Elevation is approximately 8,000’
- ★ Interior Square footage is approximately 12,000’
- ★ 6 bedrooms, 8 bathrooms, 3 levels
- ★ Primary partnership includes Resorts West, SKI Magazine and Deer Valley Resort
- ★ Construction begins October, 2005 - completion scheduled for December, 2006
- ★ Construction company is Midway Construction
- ★ Architect is Mike Upwall with Upwall Design Architecture
- ★ Home amenities include: impressive bars for entertaining, wine cellars, DJ booth and dance floor with plasma screens, game and a pool tables, theater room with the big screen on a stage and rows of theater seating with surround sound, elevator, exercise room, spa, sauna and steam room.
- ★ Outside amenities include: waterfalls flowing into the spa, several fire pits, an outside bar kitchen, gas grill, pizza oven, several heaters and televisions.
- ★ Architecture of the home: wraparound decks on both the front and the back of the home, floor to ceiling accordion style windows opening up onto the decks that wrap around the entire home and a four car garage.
- ★ Quaint gentleman’s quarters - a very private area located in the basement of the home with access only through the elevator.
- ★ A climbing wall, helicopter pad, putting green and golf simulator are also possibilities.

One of the key features of the SKIDream Home is the fact that the public will have the opportunity to write in and make suggestions about interior design, home features and more. There is much to be decided about the home so make sure to get your thoughts in! The SKIDream Home will have a live camera outside and inside the home so that winter sports enthusiasts can monitor its progress over the year and a half by reading SKI Magazine, or logging onto the Web site at [www.skimag.com](http://www.skimag.com).

During construction, Resorts West will manage the SKIDream Home project. Once the SKIDream Home is completed, Resorts West will then act as the property manager by maintaining the home and renting it out to guests seeking the ultimate SKIDream Home experience. ★
